

FACELIFT YOUR CAR WITH

IT-1094 MULTI FUNCTIONAL FLUID SPRAY

For loosening of rusted nuts & bolts, displacing of moisture, cleaning & lubrication of rusted components.

FEATURES: High penetrative property, Lubricates precession components etc

IT-1087 CARBON CLEANER SPRAY

For removal of flash-over carbon, baked-on greases, oil residues and other foreign contaminants.

FEATURES: A fast penetrating & heavy duty cleaning action loosens the hard deposit with out any scrape out.

IT-1089 CLEANER & DEGREASER SPRAY

High precession cleaner for bearings and other assemblies.

FEATURES: Fast evaporating cleaning solvent which will not leave any residue. Harmless to plastics/insulators.

IT-1099 OFFLINE ELECTRICAL CONTACT CLEANER SPRAY

For cleaning of all types of electrical circuits, PCB's, electrically driven equipment, motors etc

FEATURES: Fast evaporating cleaning solvent which will not leave any residue. Harmless to plastics/insulators.

DuPont Teflon Multi use Lubricant spray

Teflon wax film with fluoropolymer and organic Molybdenum for optimum performance.

FEATURES: Teflon wax film will not attract dirt or grime. Suitable for door hinges, sliders, cables etc

Ultra Degreaser

Water based cleaner to replace kerosene and other polluting solvents

FEATURES: Very economical, safe and non hazardous cleaner.

IT-1203 Door Locks | Bonnet Locks & Latches | Hinges | Brake Parts | Springs

FEATURES: Performs in temperatures from -17°C to 204°C | Sprays on wet, then sets up as a water & corrosion resistant grease | Enhanced with Teflon® fluoropolymer for better water resistance, maximum lubricity, higher temperature stability & better boundary lubrication protection | Uses a fully functional, industrial grade Lithium Complex Grease | Clean, white, low odor grease | Long lasting protection in a broad range of applications & conditions | Reduces friction in metal to metal & metal to plastic applications
