

Offline Contact Cleaner Spray

Description

IT-1099 is a high performance precision cleaner spray for offline-circuits. It is designed for cleaning of all types of electric, electronic circuits & components, PCB's relays, switches etc. Regular usage helps keep the contacts clean. IT-1099 should not be viewed to clean already pitted contacts.

Features:

- IT- 1099 is fast evaporating and does not leave any residues.
- It has penetrating action & is suitable to remove grease, dirt, oil and other surface contaminants from sensitive electrical / electronics devices.
- Evaporates quickly without leaving any residues.
- It is designed to clean motorized instruments, control panels, electrically driven equipments, motors and other electronic devices.
- It is harmless to all plastics and insulators.
- It has low toxicity & doesn't stain fabrics.

Applications:

For cleaning all types of circuits, contacts, instruments, PCBs etc. Regular spraying keeps the circuits clean & restricts carbon formation. IT-1099 can also be used to clean heads of audio and video equipment.

Typical Properties:

Description	Units	Specification
Color		Colorless liquid
Density at 27°C	g/ml	0.69-0.74
Viscosity at 40°C	mm ² /s	< 2

Note:

IT-1099 is based on solvents which are inflammable. It should thus not be used on the live circuits. Please ensure circuit is dry before re-starting. The can should also be stored below 50 °C and away from heat sources.
