

# MAINTENANCE AEROSOLS

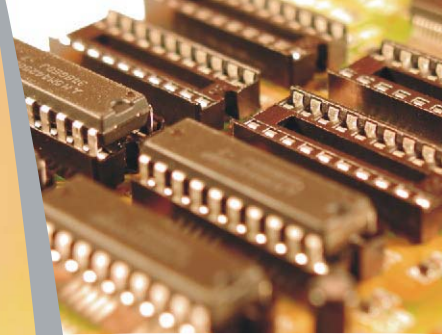

**CrossNet** range of maintenance products are high performance maintenance aids which work very efficiently and are highly effective. This product range includes industrial maintenance aerosols, ecological friendly degreasers and a slew of other maintenance products.

Designed to perform in the most demanding conditions - these not just meet, but exceed your expectations. These also exceed the most challenging needs of the industry. Safe for environment - our products are also consumed less, providing you a value for money!!

Sold through authorized distributors, our products are available at most of the industrial estates in the country.

#58, Maruti Paradise, Sector 15,

| Product  | Applications  | Advantages  |
|--|---|---|
|  <p data-bbox="121 126 300 210"><b>IT-1084</b><br/>PCB Protection Coating Spray</p>        | <p data-bbox="341 136 958 189">For protection of printed circuit boards or other electronic substrates against environmental and mechanical damages</p>   | <p data-bbox="990 105 1607 157">Protects and extends the life of the components and circuitry against environmental and mechanical damages.</p> <p data-bbox="990 168 1607 220">The coating also protects PCB's from moisture preventing short circuits and corrosion of conductors and solders joints</p>                              |
|  <p data-bbox="121 325 300 409"><b>IT-1087</b><br/>Carbon Cleaner Spray</p>               | <p data-bbox="341 325 958 420">For removal of flash-over carbon, baked-on grease, oil residues and other hard foreign contaminants from the electro mechanical assemblies, metal surfaces or similar other components</p>   | <p data-bbox="990 304 1607 378">A fast penetrating &amp; heavy duty cleaning action loosens the hard deposits without any need to scrape out these using sharp tools.</p> <p data-bbox="990 388 1469 420">It is safe for use on the sensitive metal substrates</p>  |
|  <p data-bbox="121 525 300 609"><b>IT-1088</b><br/>Insulating Varnish Spray</p>           | <p data-bbox="341 514 958 567">For touch-ups &amp; repair of the damaged insulating coatings on electrical motor coils or for impregnation of transformer coils.</p> <p data-bbox="341 577 958 630">The product is used for repair of electrical insulation, switch parts, field coils, windings, commutator parts etc.</p>   | <p data-bbox="990 514 1607 588">A deep penetrating protective coating forms a tough, flexible film which has high arc resistance and non-tracking properties.</p> <p data-bbox="990 598 1607 651">The coating protects against oil, water, acids/alkalis &amp; has thermal ratings up to 240°C</p>                                      |
|  <p data-bbox="121 724 300 808"><b>IT-1089</b><br/>Cleaner &amp; Degreaser Spray</p>      | <p data-bbox="341 714 958 766">For cleaning &amp; degreasing metal surfaces before surface treatment</p> <p data-bbox="341 777 958 850">For cleaning of bearings before lubrication or for removal of oil, grease and dirt residues from assemblies. As a cleaner during repair jobs etc.</p>   | <p data-bbox="990 714 1607 766">The spray gives 100% cleaning &amp; degreasing efficiency without leaving any residues.</p> <p data-bbox="990 777 1607 829">It is best for the precision cleaning e.g. mirror finish moulds. The product leaves pleasing smell.</p>   |
|  <p data-bbox="121 924 300 1008"><b>IT-1094</b><br/>Multifunctional Fluid Spray</p>      | <p data-bbox="341 903 649 934">A multipurpose fluid spray for :</p> <ul data-bbox="365 945 747 1050" style="list-style-type: none"> <li>- Loosening of rust</li> <li>- Dismantling of corroded/seized parts</li> <li>- Displacing of moisture</li> <li>- Corrosion protection</li> <li>- Restoration of wet electrical contacts</li> </ul>  | <ul data-bbox="990 934 1510 1029" style="list-style-type: none"> <li>- High penetrating property</li> <li>- Heavy duty &amp; hence less consumption</li> <li>- More active material in the can</li> <li>- Most suitable for the loosening stubborn assemblies</li> </ul>  |
|  <p data-bbox="121 1123 300 1207"><b>IT-1094/1</b><br/>Multifunctional Fluid Spray</p>  | <p data-bbox="341 1102 649 1134">A multipurpose fluid spray for :</p> <ul data-bbox="365 1144 747 1249" style="list-style-type: none"> <li>- Loosening of rust</li> <li>- Dismantling of corroded/seized parts</li> <li>- Displacing of moisture</li> <li>- Corrosion protection</li> <li>- Restoration of wet electrical contacts</li> </ul>   | <p data-bbox="990 1155 1607 1207">Same as above but with slightly more lubrication &amp; corrosion protection property</p>  |
|  <p data-bbox="121 1323 300 1407"><b>IT-1097</b><br/>Adhesive Chain Lubricant Spray</p> | <p data-bbox="341 1312 958 1386">For lubrication of the industrial chains &amp; wire-ropes. Excellent for applications having exposure to steam or dry high temperatures.</p> <p data-bbox="341 1396 958 1449">For long-term lubrication of small gear drives, bearings, locking mechanisms, hinges, etc.</p>   | <p data-bbox="990 1344 1607 1417">Provides lubrication up to + 250°C. The product has a very high penetration property and provides excellent wear protection</p>   |
|  <p data-bbox="121 1522 300 1606"><b>IT-1099</b><br/>Offline Contact Cleaner</p>        | <p data-bbox="341 1512 958 1564">For cleaning all types of electrical circuits, contacts, instruments &amp; PCBs etc.</p> <p data-bbox="341 1575 958 1627">Designed to clean control panels, electrically driven equipments, motors and other electronic devices</p>  | <p data-bbox="990 1512 1607 1564">It is a fast evaporating cleaning solvent which does not leave any residue.</p> <p data-bbox="990 1575 1607 1648">It cuts grease, dirt, oil and other surface contaminants from sensitive electrical / electronic devices &amp; is harmless to most plastics and insulators</p>                       |
|  <p data-bbox="121 1722 300 1806"><b>IT-1100</b><br/>Online Contact Cleaner</p>         | <p data-bbox="341 1711 958 1764">IT-1100 is a high performance precision contact cleaner spray designed for use on the live electrical circuits of upto 440 V</p> <p data-bbox="341 1774 958 1827">It is an ideal choice for cleaning of the PCB circuits and other delicate electrical/electronic components</p>   | <p data-bbox="990 1701 1607 1753">The product is harmless to plastic, rubbers &amp; insulating materials.</p> <p data-bbox="990 1764 1607 1816">It evaporates quickly without over freezing and does not leave any residue.</p> <p data-bbox="990 1827 1347 1858">IT-1100 is non-flammable &amp; odorless</p>                           |
|  <p data-bbox="121 1921 300 2005"><b>IT-1102</b><br/>Cold Galvanising Spray</p>         | <ul data-bbox="341 1890 958 2058" style="list-style-type: none"> <li>- As a primer over rusted metal surface or to repair hot dip galvanized surfaces.</li> <li>- For protection of the welded joints or repair of the AC dusting etc.</li> <li>- For repair of the structural steel bridges, buildings, off-shore rigs, steel windows, sheet metal or electrical transmission</li> </ul> | <p data-bbox="990 1921 1607 1984">Zinc rich coating that performs like a hot dip galvanized coating to prevent rust and corrosion on all types of metals for up to two years.</p> <p data-bbox="990 1995 1607 2047">It works electro-chemically on all ferrous metals, providing rust and corrosion protection indoors and outdoors</p> |
